Lyrics

Little country church on the edge of town
People comin' every day from miles around
For meetin's and for Sunday school
And it's very plain to see
It's not the way it used to be

Preacher isn't talkin' 'bout religion no more
He just wants to praise the Lord
People aren't as stuffy as they were before
They just want to praise the Lord
And it's very plain to see
It's not the way it used to be

They're talkin' 'bout revival and the need for love
That little church has come alive
Workin' with each other for the common good
Puttin' all the past aside
Long hair, short hair, some coats and ties
People finally comin' around
Lookin' past the hair and straight into the eyes
People finally comin' around
And it's very plain to see
It's not the way it used to be

Acts 2:42-47

The Fellowship (v.42-43, 46)

- You can tell that those people really wanted to be together. Would you describe this youth ministry the same way? Why or why not?

- Which of these descriptions fit this youth ministry? Which ones don't apply to this group at all?

The Common Good (v. 44-45)

- How do you show your concern for and support for others?

- Is there something we can do as a group to mirror the attitude of this little church in Jerusalem so long ago?

The Result (v. 47)

- What do you think most people outside of our group think of us?

- How long has it been since someone new has been added to this group?
